Extensive Improvements to Be Made in the Stationhouse.

DEATH OF MRS. J. R. NEAL

Manchester Bureau, Times-Dispatch, No. 1102 Hull Street. Mr. J. R. Neal, of No. 901 Semme Street, died yesterday at 3:20 P. M., aged twenty-two years. Typhoid fever was the cause of death.

The deceased is survived by his parents Mr. and Mrs. J. R. Neal, three sisters-Mrs. Lucy Osterbind, Mrs. Ida R. King and Miss Emma S. Neal, and six brothers -F. S., Gill, Charlle, Thomas and Wyatt

The body will be taken at 12:30 to-day to Scottsburg, Hallfax county, where the funeral will take place.

To Improve Station-House. To Improve Station-House.,
The Buildings and Lands Committee
have decided to make extensive improvements to the station-house, and have
advertised for bids to that effect. The
plans of the committee embrace the arranging of two offices is the building,
one for the city engineer and the other
for the Mayor. A new cell will be built
between the door facing on Ninth Street
and the second cell toward the door. The between the door facing on Ninth Street; and the second cell toward the door. The hydrant will be removed from its present position—and placed to the right of the sew cell. Wire hammocks will be placed in the old cells, and a cot will be used for the new cell. The latter will be fitted up as nicely as can be expected for a thing of the kind, and will not be used for drunks. These will be placed in the old cells.

The new ose will be used only for pris-oners of respectable appearance. In ad-dition to these improvements, it is the idea of the committee to put down a ee ment floor, seal the walls and whitewash all other places. The sanitary arrangements of the old cells will be renovated and modern appliances will be used for the old ones. In all ways the station-house will be repaired and improved.

These ideas are not to be understood as the result of the investigation of the grand jury. They were being promul-gated long before the investigation was thought of, or even complaints of the unsanitary condition of the place had been so publicly mentioned. The committee had a full idea of their duty and responsibility in regard to the matter, and wer every effort to better the extering

NEW YORK, July 18.—An indictment charging grand larceny in the first degree was returned by the king's county grand jury in Brooklyn to-day against Frederick E Carlton, who was at rested several days ago on compilant of Henry J. B. Schaub.

Schaub, who is one of the engineers of the United States submarine loat Porpolse, charges that Carlton obtained \$1,700 from him by a fraudulent real estate transaction.

Carlton is in jail in default of \$2,000 bail in the case, and District Attorney Clarke, of King's county, said to-day that he would ask that this amount be increased. "In several of the late issues of the Culpeper Exponent, Mr. Willard's atti-tude toward House Bill No. 194, Bession of General Assembly of 1899-1900, pub-lished in the Acts of 1899-1900, on page 236,

competent statistician is found.

Mr. Hyde's withdrawai from the Department created wide interest. Secretary Wilson and other officials of the Department have stated that Mr. Hyde has not been implicated in any manner in the irregularities that resulted in the dismissal of Edwin S. Holmes. There is considerable speculation as to the probable successor of Mr. Hyde. One name that has been suggested is B. W. Snow, of Chicago, statistician for well known farm journals, and once an assistant statistician under J. R. Dodge, who was chief of the bureau about twelve years chief of the bureau about twelve years

chief of the bureau about twelve years ago. Mr. Dodge was in charge at the time the present system of gathering crop statistics was devised.

Colonel Henry Hester, secretary of the New Orleans Cotton Exchange, in a conversation with Secretary Wilson, contended that the salary paid by the Department is inadequate to get the right kind of man for the place.

LITTLE ROCK, ARK., July 18.—A special to the Gazette, from Dardanelle, says:
A letter, dated from Washington, D. C.,
July 11th, from John Hyde, as chief of
the Bureau of Statistics who has been
investigating the Southern cotton situation, has been received by W. C. Hunt,
of this place. Mr. Hunt is the reporter
for Yell county of the cotton conditions.
Mr. Hyde states in this letter that he has
failed to receive reports from Mr. Hunt,
and asks why he has discontinued them,
and requests that he resume the work.
Mr. Hunt has been sending in his reports regularly. His last report gave the
cotton conditions of the county at sixty
per cent, and the reduction of acreage
throughout the county at 25 per cent,
and that of this locality at thirty per
cent.

The best known remedy in all America for the symptoms as above given is Dr. Pierce's Favorite Prescription—an honest and a safe remedy which no worman can afford to lose the opportunity of trying for the cure of those distressing complaints which weaken a woman's vitality. Dr. Pierce not only assures you that his "Favorite Prescription" is honestly made, but he lets you know just what it contains. It is now mearly forty years since he put up this prescription in a form to be easily obtained at every drug store. Previous to that time Dr. Pierce practiced medicine and made the diseases of women his specialty. He found that there was one prescription that cured ninety-nine per cent. of his cases. The ingredients were taken from nature in the shape of a non-alcoholic extract of medicinal roots and plants whose curative properties are generally recognized by the medical profession throughout the country, and whose harmless character you can learn from any druggist or physician. Dr. Pierce early learned how to combine these ingredients in just the right proportion to make a harmonious and efficient remedy. Ex-

Mr. Hyde Happy.

(By Associated Press.)

WASHINGTON, D. C., July Is.—Mr. Hyde, at his house to-night, said that he felt that he had east off an immense burden from his shoulders. He had faily intended to resign some time during the coming autumn, he stated, and, therefore, he had only advanced his resignation by a few weeks. Mr. Hyde spoke of how congenial the work had been to him, notwithstanding its laborious character, and expressed regret at having to part "from the efficient clerical force in the Bureau of Statistics."

"Their loyalty and their personal regard for myself." he said, "of which, I had evidence to-day, is extremely touching. I shall have very few recollections of my eight years' work there that will not be highly graiffying to me as long as I live. The secretary has always been extremely kind to me, as I stated in my letter of resignation."

As regards the investigation now boing conducted by the district attorney, Mr. Hyde said that he had calculated to assist in every possible way in getting to the bottom of the case, and that even now, that he was out of office, he would, if called upon, be only too happy to contribute in any way, his aid in the investigation.
